## 1. AT A GLANCE

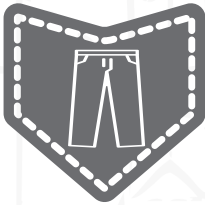

**100% Export-oriented**

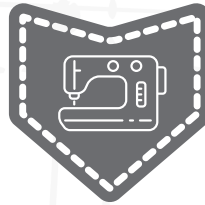

**68,000m2 Land Area**

**30+ Countries of Export**

**35,000 garments  
Daily Production Capacity**

**20 Sewing Lines**

**5,000+ Employees**

## 2. WHO WE ARE

T&C Garments was established in 2010 as a Joint Venture Company, with the purpose of manufacturing top quality denim garments for leading global brands. Since then, we have been committed to being innovative, reliable, and true to our sustainability goals. T&C was strategically located in Egypt on an area of 68,000 meters squared and employs more than 5,000 people.

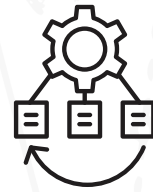

### 3. OUR STRATEGIC LOCATION

T&C is located in the industrial zone of **Al-Obour City, Egypt**, only a few minutes away from the capital, Cairo, and approximately **20-30 minutes** away from Cairo International Airport. T&C benefits from its strategic location in Egypt for many reasons, including the following:

**Large  
labor force**

**Robust  
infrastructure**

**Proximity to our  
export markets**

**Duty-free access to  
export markets**

## 4. OUR HISTORY

### Developmental Milestones

# 2010

Company establishment

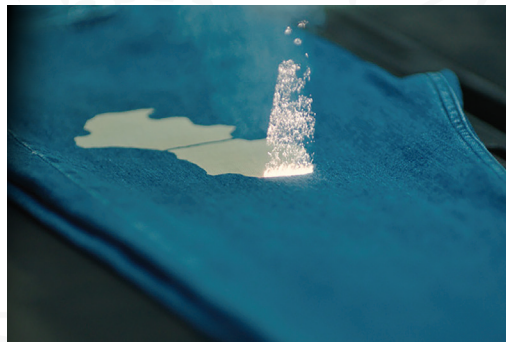

# 2011

- Start of operations
- First orders shipped to Levi's

# 2012

Complete set-up of 8 production lines reaching a production capacity of 10,000 garments a day

# 2015

New investments in washing and laser technology

# 2016

Building strong long-term relationships with new clients

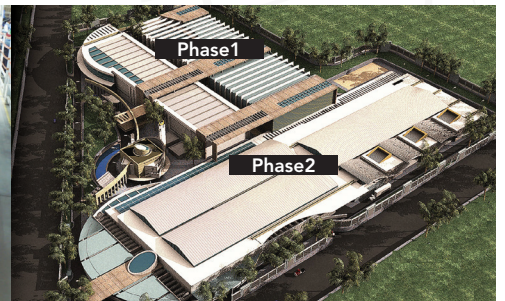

# 2017

Launched Phase 2, a new production facility consisting of 20 new production lines

# 2013

- Complete set-up of 15 production lines and production capacity of 18,000 garments a day
- Established R&D Department
- Certified an in-house laboratory

# 2018

Further investments in Phase 2 and investments in laser technology

# 2019

Completed new Finishing & Packing Unit in the new facility

# 2020

Reached 20 production lines and production capacity of 35,000 garments a day

## 5. WHAT WE DO

### OUR PRODUCTS

We are an apparel manufacturer with a focus on denim. Although the majority of our production consists of five-pocket denim pants, we also manufacture denim shorts, skirts, jackets, as well as chino and cargo pants.

DENIM PANTS

DENIM SHORTS

DENIM SKIRTS

TRUCKER JACKETS

CHINO PANTS

CARGO PANTS

## RESEARCH & DEVELOPMENT

At the core of our operations is our Research & Development Department, where we create trendy market-conscious designs to meet our clients' demands. With international and industry experience, we are able to foresee demands and perform in an innovative manner.

## LABORATORY

Our garment production is enhanced with thorough inspection of our products in our in-house accredited lab.

LABELING

## 7. OUR ENVIRONMENTAL IMPACT

### ENERGY

In a continuous effort to reduce our environmental impact, we have adopted different energy saving projects, including:

***The use of alternative illumination***

to maximize the utilization of natural daylight.

***Using hydrotherapeutic processes***

to save up to 30% of electricity entering the station.

***The use of sensory systems*** in common areas.

***Replacing all light sources*** with energy saving led sources.

***A solar panel project***

expected to reduce our energy consumption by 50% when complete.

## WATER

In collaboration with some of our clients, we aim to reduce our water consumption levels per unit produced. In doing so, we invest in water saving projects, including:

**Operating new generation washing machines**

which use one glass of water per product, leading to 95% water savings and 75% chemical savings.

**Expanding our laser unit,** saving up to 100% in chemicals and water used in the dry processes, washing effect, and permanganate spray processes

**Biologically treating up to 1,500 cubic meters of wastewater per day** with the use of oxidation bacteria in our waste water treatment plant

**Investing in a water recycling project,** which will allow us to not only treat our wastewater, but also reuse it, hence reducing our water consumption.

## 8. OUR SOCIAL IMPACT

**People, our most valued asset!** At T&C, we continuously invest in our people while adopting different sustainability goals, including no poverty, good health and well-being, gender equality, and decent work and economic growth.

## 9. OUR CLIENTS

We have built long lasting relationships with our clients. Some of Our Clients:
